

More than **sensors + automation**

Temperature Measurement

JUMO is one of the largest producers of industrial temperature sensors and temperature probes in the world

JUMO Temperature Measurement

We are wherever you are

Our solutions for the industrial sectors

Vehicle manufacturing

Oil level measurements

Shipping industries

Commercial vehicles

Railway engineering

Renewable energies

Biogas plants

Wind turbines

Industrial furnaces

Solar thermal systems

Industrial applications

Pharmaceuticals and biotechnology

Plastics and packaging

Offshore

Water and wastewater

Chemicals

Building management

Heat meters

Heating and air conditioning

JUMO – quality made in Germany

JUMO, founded in 1948 in Fulda (Germany), has established itself as one of the main producers of temperature sensors in the world. In its worldwide factories JUMO produces several million Pt100/Pt1000 and thermocouple sensors annually for a wide variety of applications. We are in a perfect position to help you find the right solution.

Customized design – defined accuracy

JUMO does not only manufacture standard sensors but we are also particularly experienced in developing customized solutions that truly meet the individual requirements of our customers. Calibration of the temperature sensors is performed in our calibration lab in Fulda that is certified according to DAkkS (the equivalent to Swedac).

DAkkS calibration service

- Accredited according to DIN EN ISO/IEC 17025:2005
- Laboratory code D-K-15129-01-00
- Calibration of RTD temperature probes and thermocouples
- Calibration range: -80 °C to +1100 °C
- Traceable measurement results are certified in a calibration certificate according to EN 10204

Our quality – your success

By officially certifying our management systems according to DIN EN ISO 9001 and DIN EN ISO 14001, our transparent processes are consistently improved. As a result we have the flexibility to rapidly implement the ever-changing requirements that our customers face. Lastly, the sustainability of our processes is permanently monitored via performance indicators.

Our knowledge – your benefit

- Practice-oriented courses and seminars provide important expertise
- We offer training at our main headquarters in Fulda or at your own company upon request
- We provide service and support for the local markets

Close to the customer all over the world...

... with locations on all five continents.

- Headquarters in Fulda (Germany)
- Subsidiary
- Field office
