

Installation and Startup Guide for CDI 5200 and 5400 Flowmeters

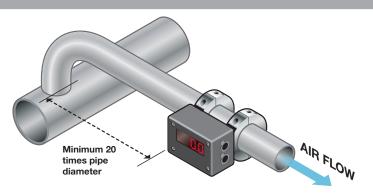

Please refer to the data sheets for more detailed instructions.

CDI Meters, Inc.

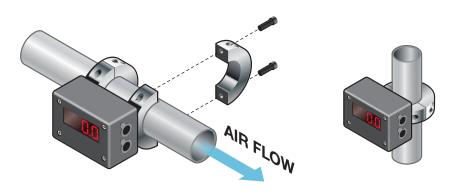

3R Green Street Woburn, MA 01801 866-885-2462 ©2010 CDI Meters, Inc.

1. Meter Location

- Maximum pressure is 200 psi in Sch. 40 steel and Type L Copper. Consult CDI about other applications.
- Air must be free of water droplets. Locate the meter downstream of a dryer.
 Otherwise, locate it after a mist-removal filter.
- Provide at least 20 diameters of straight pipe upstream of the meter, or 30 if it
 is downstream of anything that could distort or concentrate the flow.
- Weather resistant option or 6000 Series is required if the case could be exposed to moisture.

3. Mounting the Meter

- · Check the flow direction.
- Orient display to suit application rotate cover and display 180 degrees if appropriate.
- Do not over-tighten screws.

2. Drilling the Holes

Half-Ring Drill Guide

Universal Drill Guide with Band Clamp

- Air must be shut down.
- Wear eye protection.
- Shavings will enter pipe; make sure they will not cause problems downstream.
- · Orient the drill guide for optimal meter visibility.
